

Securing a Top-60 UK Accounting Firm: Everything Tech x Lubbock Fine

Everything Tech is the trusted technology partner behind Lubbock Fine's IT operations, keeping their 21-partner, 200-strong London accounting firm secure, modern, and running with minimal interruption. We handle the essentials that power their business: day-to-day IT support, infrastructure modernisation, hosting management, and proactive oversight of their entire environment. Security is built into everything we deliver, giving them a resilient, always-protected foundation that supports the demands of a top-60 UK practice.

Key Challenges

- Growing compliance pressures
- Legacy infrastructure risks
- Lack of proactive system monitoring
- No SSL certification management

Key Outcomes

- Encrypted, regulation-aligned hosting that protects sensitive financial data
- Full on-premise infrastructure refresh
- Proactive patching, system monitoring and configuration management
- Ongoing SSL certificate management, ensuring SSL certificates are always in place and hosted securely

Everything Tech's Approach

With a dedicated account team and our security-led technical specialists working closely with Lubbock Fine, we take full ownership of managing their infrastructure, systems and users so the firm can stay focused on delivering exceptional client work.

Our team continuously strengthens their security posture through proactive monitoring, secure configuration management and regular optimisation of their environment. By maintaining a fully encrypted, hardened and compliant platform, we ensure sensitive financial data remains protected and aligned with sector expectations.

We manage all licensing, patching and platform upkeep to keep their software supported and secure, while modern hardware and the removal of legacy systems further reduce operational and regulatory risk. Combined with a security-by-design network architecture that limits lateral movement, our approach gives Lubbock Fine the reassurance that their entire estate is protected, compliant and ready to support the demands of a top-tier accountancy practice.

**The best MSP
I've partnered
with in 20 years.**

They understand our business, stay ahead of risks, and deliver the level of service a firm like ours depends on. Their account management is exceptional, proactive, responsive and genuinely invested in helping us move forward.
